day, and the half-mast.

At a meeting of the Ministerial Union, held in Pasadena, a resolution was passed urging the pastors of that city to assist in putting a stop to the practice of burying the dead on Sunday. It is claimed that Sunday funerals take up too much of the ministers' time, and that they prevent the undertakers attending church services. Following the authorised burning of the buildings in Chinatown in Santa Ana, City Trustee John Cubbon of that town has tendered his resignation. No explanation is offered for his action.

SHAKE HEADS AT PRINCESS RAJAH

Furore Over Mrs. Kinney's Introduction of a Rosy Dancing Girl Into Society—What the Princess Says About Her Fair Self.

RAJAH HERSELF.

The Princess Rajah herself is as yet serenely unconscious of the ripple she has set rippling. It is herewith broken to her as gently as possible.

She discussed the matter yesterday with Times reporters, sitting crosslegged on the stage of the Egyptian palace on the Venice Midway.

The Princess appeared first at Venice last November, when the Midway opened. She took a little bungalow, where she is attended by two romantic-looking Singhalese servants. The show opened with a sword contest between two jaded young men, who declined to get much thirst for gore to edify four spectators. Each swordsman thad a pan on one fist and a sword in the other.

After this, a lady who looked as

and go out of the hall at such a dance."

After the dance was over, the Princess came down to the front of the stage, and sat down cross-legged, and was very sociable.

Some one stammered out the question; but she did not quite understand. Were the girls jealous because she got the banner?

"Oh," she said with an air of gentle regret. "Oh, I shouldn't like to say. You mustn't ask me. Oh, they were nice girls. Of course, I was the one they gave the banner to.

"Did they act jealous? Oh, I don't know. Really, I didn't notice. I wasn't looking at them.

"While Mrs. Kinney and another lady were putting on my dress for me,

was my dress. What kind? What kind should it be—a princess dress."

(It should be remarked that the lady is the Princess of Coochy, which was annexed to the great province of Hoochy, on the death of her illustrious father, the King-familiarly known to history as old King Cole.)

"Oh yes," said the Princess, "Of course I am in the the-syter business, but I have many nice friends—oh yes such nice friends. When I danced in St. Louis, Alice Roosevelt gived me a big bunch of roses."

RAJAH'S PATRONESS.

Mrs. Kinney was seen after this interview with the Rajah Princess. She was asked if the society girls had not refused to help sell confetti during the carnival of Venice on account of the appearsance of the Princess in Fiesta; if one of the guests had not backed out of the box pasty on account of her being a guest. Mrs. Kinney was very gracious; but denied it all. "Not a thing in it," she said. "The girls did refuse to sell coefetti but it was only because they were tired out and thought they had done their share by taking part in Piesta. I thought so myself.

"We have taken a fancy to this girl."

had appeared in my country, she would have been killed. I would not blame anybody if they get right up and go out of the hall at such a ON RATE BILL.

"Did they set jealous? Oh, I don't know. Really, I didn't notice. I wasn't looking at them."

"While Mrs. Kinney and another lady were putting on my dress for me, I remember their being in the room. They said to me: Oh, do you suppose we will get the prize? I said. 'Can't tell; there are so many beautiful womans in the parade.'

The Princess looked down at the beads on her gown, pensively; then remarked, with a childlike innocence, "Do you know, aint it funny that whenever I ride in a parade I always get all the prizes?"

"Oh, yes," she added. "In St. Louis, I rode in the parade. They was lots society womans—all diamonds—whee, such diamonds! I di'n want to go. I almos' cry when the manager make me. He git me fine gown—all loaded with sliver.

"Well, I get on a camel, and I bew just like I did in Fiesta. Everybody holler. You never hear such hollering.
"I get the prize for dress; and the prize for grace." (Here the Princess looked very coy.) She added, "I guess judges was blind that day, I get prize for beauty; I get 'ma all' (throwing out her arms.)

The Princess was gently urged on to talk of her social triumphs. "I went with Mrs. Kinney and Mr. and Mrs. Wheat to the box to hear Sarah Bernhardt. That was mos' grand, and so was my dress. What kind? What kind should it be—a princess dress."

HER LINEAGE.

(It should be remarked that the lady is the Princess of Coochy, which was approach to the word of the Interstate Commerce Committee as conference on the rate bill, and they were not instructed in any matter. They are Senator Elkins. Collum and Tillman.

Consideration of the Panama Supply lill was interfered with by the Canal Type Bill, which was laid before the Senate at 2 octock as the unfinished business.

Senator Kittredge's speech was the senate at 2 octock as the unfinished business.

Why Shouldn't a Man

who likes music get all the pleasure and enjoyment he can, by having in his home a piano that he can play himself, so that he can have just the particular kind of music he likes best and have it whenever he wants it?

YOU SAY: Because he hasn't the time and patience to learn to play the piano.

WE SAY: He dosn't have to learn to play the piano. Not this one -- The Farrand-Cecilian Piano-for he (or anyone else) can play it,-play any music desired-Classical, Operatic, Dance Music, Rag Time or Popular-and play it with expression and feeling too, even though he knows nothing about music or plano playing.

Sounds strange, but it's all true, nevertheless.

The Farrand-Cecilian is a high-grade upright plano with a brilliant, clear, sweet tone, and with the mechanism of the metal action Cecilian Piano Player built inside the case.

You can play this piano with the fingers, just the same as you would any ordinary instrument, or you can play it with the mechanism of the Cecilian Player, which is built into it, so it is equally available for the wife and daughter, who have spent years of patient study and practice in learning how to play the piano, and for the man who dosn't know a blessed thing about music.

Wouldn't such a piano-a piano that all the family could play-be used far more than the Piano you have now?

We want you to come in and see and try this piano for yourself. It is a wonderful instrument, and you must see it to appreciate its many merits.

The price is \$675.00. Easy payments if you like. Your old piano will be accepted for all it is worth, as part payment.

Announcement.

HE Directors of the Wilshire-Harvard Heights Company have decided to extend for thirty days the time during which lots in that tract may be purchased at the original prices; the advertised 10 per cent. raise on all unsold lots going into effect on July 1st.

This action is due to the fact that during the short time between the former announcement and date set for raise, business was largely interfered with by Fiesta and the inclemency of the weather.

ATLANTIC CITY, May 22.—Senator Dolliver of Iowa, before a Y.M.C.A. mass meeting yesterday, made a pointed attack on those sociologists who purpose to deliver the race from all care, toll, burdens and competition. "Those of my acquaintances," said the Banator, "who have reached this desired haven are either deadheads or the wards of government institutions." He said the tendency of these teachings was to produce drones, and declared some of the recent struggles between labor and capital had approached the ridiculous.

"The sociologists have missed the philosophy of human life," he continued. "The law of labor, struggle, service and sacrifice, is the mold in which rugged manhood is made by achievement. A contest is demanded to make character. If you give a boy \$50,000 to start life with, he does not start. He curis himself up on the door mat and sleeps."

TALK TALCUM?

If you are buying talk then buy anything the dealer may choose to may is "just as good."

If you are buying talcum, then MENNEN'S BORATED TALCUM is the only preparation which you can buy with satisfaction.

"Talk is cheap." Talcum, however, is not so cheap, because it costs the dealer more and makes his profit less. That's why he'd sconer sell you talk than "talcum" of the Mennen Brand.

Don't be talked out of buying Mennen's Borated Talcum, the only powder which can be used with safety and satisfaction.

physically, who realize that the old "fire" and energy which was so rident in youth is absent now; men who can't stand the amount of exertion they could years ago. We want you—if that means you to see what we have done for others who were just as bad off. That's our introduction. If a friend in whom you had confidence presented me one to you and said: "Jack, here's Brown; he has made good with me and I trust him," wouldn't you trust him, too?

Now, if you don't feel right we can cure you with our Electric Belt. If you are full of rheumatic pains we can knock them out. We can pour oil into your joints and limber them up. We have often said that pain and electricity can't live in the same house and we prove it every day.

and electricity can't live in the same house and we prove it every day.

Mr. Geo. M. Curtis, Livingston, Cal., writes: "I suffered with chronic lame back for years. I am pleased to say that after three months' use of your Belt I am completely cured and as well as I ever was."

One thing every man ought to know is this: Your body is a machina. It is run by the steam in your blood and nerves. When you begin to break down in any way you are out of steam. That's just what we want to give you back.

Mr. John O'Brien, 1453 Fifth St., Oakland, Cal., writes: "I suffered intensely from very severe lumbago. Plasters and medicine afforded me no relief. After using your Belt for nine days my pains were gone and I have been free from suffering ever since."

WE HAVE A CURE IN EVERY TOWN. Tell Us Where You Live and We Will Give You the Name of a Man

We Have Cured.

Tell us your trouble and we will tell you honestly whether we can cure you or not. If we can't cure you we don't want your money. We have been in this business twenty-two years and are the biggest men in today by long odds, and we are growing yet because we give every man all he pays for.

Now, wouldn't you rather wear our life giving appliance while you sleep every night, and feel its glowing warmth pouring into you and feel yourself taking on a new lease of life with each application than to clog your intestines with a lot of nauseous drugs? Surely! Try us.

If you will come and see us we will explain it to you. If you can't call, let us send you our book full of the thir a man finds inspiring to strength and courage. Free if you send this ad.

James Cuyler, Reno, Nev., writes: "I have used your Electric Belt and can truthfully say that it has cured me of what was supposed to be a hopeless case of lame back. I am now in perfect health and the credit is due to your treatment."

EXACTLY what to do to effect a thorough cure in every case that I accept for treatment. Though this is something that every specialist ought to know, it is rare knowledge indeed. The hundreds of evidences of mistreatment that come beneath my observation prove the general lack of a clear understanding of men's diseases and their treatment. I have devoted twenty-five years to the study and treatment of the very few ailments constituting my specialty, and have acquired the knowledge and skill and developed the original and scientific methods that enable me to accomplish results such as no other physician anywhere has ever accomplished. I understand my work from first to last, know what to do and what not to do, and treat every case without the slightest idea of failure. I positively confine my practice to diseases of

DRY GOODS SPRING AND THIRD STS.

New oods Today

F RESHNESS, variety and exclusiveness are the keynotes of this new lot of light weight summer woolens; every piece a pronounced leader. And there's a price inducement difficult to appreciate until you've seen the goods. Weaves are of the Panama and taffeta order. Grays, of course, predominate, all shades: Black and white, brown, and greenish grays. Plain mixtures or invisible plaids and checks in self or neutral colors. White grounds with groups of narrow heripes in brown, blue or black illuminated here and thread lines of red. All in all, it's the most arised grown ways above this season.

\$1.50, \$1.75 and \$2

aists

New waists are here for today, among them a line at a dollar that beats anything in waistdom we've seen in many a season. They are good in that they are new in style, well made and neatly trimmed. Easy enough to see a couple of dollars' worth of good in them if you're observing. They are of white lawn—not sleasy stuff, either—fine tucked front and back, five-inch panel of embroidery down the front, either short or long sleeves and back or front buttoned. Your seamstress would not make such a garmant for the price—couldn't afford to.

20 Dozen at the One Price, While They Last Each

affeta

Another lot of those pretty little black taffeta eton jackets came yesterday, and will go on sale this morning. The two dozen we had one day last week lasted only an hour or two, and it's a safe guess to say that these will be picked up this morning just as eagerly.

Made of splendid quality silk, lined with good white satin, trimmed with black and white braid and white taffeta silk. Brand new in every particular. Thirty-six of them. Today, each, \$6.95.

SOCIETY'S FAIREST, IN CONCERT-BALL, AID IN NOBLE CAUSE OF CHARITY.

After the first dance at the great Charity Ball last evening. The music had just stopped when unusually successful "flash" photograph was taken. artists and musicians came off.

The wealth and beauty and fashion of Los Angeles turned out en masses and the great ballroom was crowded with fair maids and matrons.

It was an exquisite setting—the great hall a-glimmer with electric lights twinking amidst the feathery fronds of asparagus plumosus, which wreathed chandeliers, piliars and balcony, and crept along the paler green of the walls crept along the paler green of the walls of the ballroom. Hanging based on the paler green of the walls crept along the paler green of the walls of the ballroom. Hanging based of a many of the governmuda lilies, as well as many of the other flowers, were given by this association.

In addition to this were large donations from private individuals, who stripped their conservatories and flower gardens for the event. Mrs. Harry Lombard and Mrs. Hancock Banning and many others gave generously of the ceiling to the stately row of Ascenting the ceilin

Manager Lehigh Offers Chutes for Twenty Per Cent. of Gross Re-ceipts—Meeting Between Pendle-ton and McCarey Fails to Mate-

Unless the owners of Chutes Park are more magnanimous than they have shown themselves to be in the present baseball enigma, Tom McCarey will not take over the Los Augeles franchise, and some one else will have to be found to pose as "angel" for this year.

There was to have been a meeting yesterday between McCarey, "Corney" Pendleton and others interested, but this failed to materialize and an effort will be made today to find a solution of the problem.

McCarey is still willing to take the franchise, but is averse to giving the

McCarey is still willing to take the franchise, but is averse to giving the park management the price asked for the grounds.

When Morley sought to renew his lease Lehigh offered to give the use of the grounds for 20 per cent. of the gross receipts. This was too high, hence the refusal to re-lease them. This is the same figure put up to McCarey.

It is estimated that receipts from games would run around \$4060 per month, and 20 per cent. of this would be giving \$300 per month, which is considered exorbitant.

At first McCarey had decided to give up baseball altogether, but still sees a great future in a franchise. For that reason he will not for a time abandon the idea of acquiring it.

In the meantime the Looloos are playing in the north with players loaned from other clubs of the Pacific Coast League, against a picked team.

PORTLAND, May 28.—Portland won the game in the tenth inning today, when Sweeney, Mitchell and McCreedle, the first three men up, each singled. Portland found Bergman an easy mark, but perfect fielding by the visitors killed off the best part of the hits before they matured into runs. Garvin on the other hand, was a puzzle to the Southerners, and was hit but three times. Capt. 25 feet from the deck. It was a new stick, and the break was caused by a flaw in the wood. There was quite a sea outside, and when the Lila began to jump in it the weak spot in the mast was soon found and snapped off. It was a fortunate thing that the accident happened when the yachts were so near home. If it had broken when they were well out to sea, it might have been a long time before they were picked up.

It was thought on Saturday night that the Gauntiet, the third boat which started for the Lipton Cup, had put into the Horseshoe. At the Brooklyn Yacht Club last night it was thought that the Gauntiet was so far behind when the accident happened that those on board would know nothing of it. It was said that the Gauntiet had evidently gone on, and was getting quite a big lead on the other two yachts. The wind yesterday was very flukey. At times it blew quite fresh, and then when the rain killed it there would be a fait calm, so that the Gauntiet could not have got very far away.

CLUB HAS PAY DAY.

TICKET HOLDERS GET COIN.

Testerday was pay day with the Pacific Athletic Club, and had a stranger dropped into Greenewald's cigar store he would have believed the Standard Oil Company or a politician's confidential clerk was paying off their help.

From early in the forencon until late in the evening a long line of ticket holders who attended the fight that never occurred, marched by the dispursers of coin, each glad to receive his money back, but nearly all expressing regrets that they did not receive a run for it. There were fakers in line, and doubtless many got away with something, but twenty-two bogus tickets were taken up and the holders told that their work was too crude.

Throughout the day Al Greenewald and assistants disbursed about \$17,000 and this, coupled with what was paid out Sunday, made about \$27,000 returned to the public.

There were many amusing incidents while the fans were getting their money back. Many persons reached the line that had neither ticket nor a scrap of paper to show that they were at the fight. To most of these the word was given to call again, after coupon holders and number holders had been satisfied. One / rancher had driven twenty miles to get his money, and put up such an earnest plea that he was sent away with a new five-dollar gold piece in his hand.

The fakers were mostly what is commonly known as the "wise guy," a character that would graft on a funeral opportunity presented. A sharp look in the face and a glance from two big policemen generally had the effect of starting them on their way. Some of these gentry had enough tobaccostained coupons to secure the whole bank roll. They had secured entrance to the pavilion and gathered up all coupons in sight. The fact that they had been trampled on saved the club many of lars.

But the club is determined to satisfy the public. There are many who will lose through their failure to hold coupons or to secure a number at they had been trampled on saved the club many of these blame themselves and will bear

whisky are put upon the American market every year by the manufac-turers of what is called spuriously imitated whisky. This traffic in doc-tored spirits seems to have been growing at a tremendous rate. In a period of seven years the manufac-ture of this bogus whisky increased from 67,109,373 gallons to 105,298,963 gallons, and that bottled in bond in-creased from 535,535 to 1,589,439. It has been said time and again and

The Federal and State governments owe it to the people to establish a rigid supervision over the sale of these intoxicating liquors. The ablest physicians may contend that pure spirits, taken in moderate quantity, possibly under a physician's direction, is beneficial in given cases where the system is run down. It may be contended that a glass of pure wine taken with a dinner or lunch is beneficial to the general fiealth and it surely may be maintained from experience that no deleterious effects can follow such moderate indulgence. In the House, yesterday, on motion of Mr. Payne of New York, the so-called free alcohol bill, with the Senate amendments, was agreed to and the bill now goes to the President for his approval. Defense Against Hail.

The use of cannon to divert or dissipate hailstorms has become so common in all the wine-growing districts of France that it has ceased to attract much attention. More cannon had been in use or placed ready for use in the wine-growing districts of France' last season than ever before, and the wine-growers are more than ever convinced of their efficacy against hailstorms.

Some ten or twelve years ago, when this means of protection against hail was first employed, the wine-growers held meetings and gave banquets annually to celebrate their victory over they have used the cannon as generally as ever when a hallstorm occurred.—[London Times.

A Greater City's Needs. LOS ANGELES (Cal.) May 25, 1906.— To the Editor of The Times: Much s being said and written about the los Angeles of the future. Do the peo-cle at large comprehend all that it Los Angeles of the futile. Do
ple at large comprehend all that it
means? Do they realize and appreciate
the needs it implies as well as the benefits it promises? One would hardly
think so from recent discussions. It
seems almost incomprehensible to an
observant visitor that there should exsist such lack of harmony touching
these great interests. The prime and
imperative necessities of any populous
community are water supply and draincontinuous they are present pressing needs for such purposes occupies a more favorable location than hers. Bringing a pure and ample water supply from the mighty mountain basins above her head, and extending a perfect system of drainage to the great ocean reservoir that laves her feet, this beauteous Queen of the Valley would have no peer or rival in the health and comfort of happy homes in all the coming generations of the Pacific slope. Nature has provided her with the best possible facilities. From the sublime peaks capped with perpetual snow this wast territory slopes constantly and with graeeful undulations to the sen; it requires but the masterful hand of man to skillfully utilize these opportunities for the benefit of the half-million people to be gathered within her gates in the near future, and to provide for millions more who will some time inhabit the larger area. Her industries, slowly spring up, are still in their infancy; other industrial enter-

that any Pacific Coast store had offered such extraordinary values in high class imported merchandise as used by the exclusive tailoring firms of New York and represented by the "Houston" stock which we purchased entire and offered for the first time Monday. It has given an opportunity to every woman to purchase the exclusive lines of goods to supply her every want at positively less than import cost. Some of the best known society women were in attendance at the sale yesterday, as were also a score of the best local dressmakers. There are thousands of dollars of merchandise yet to sell and just as good values today as there were yesterday. A partial review of the offerings will convince.

accounts; whose word for your own bookkeeping.

The old vegetable John's little giftsgenerous far beyond what he can afford—have been a piesaant feature of the year. They have been cheerfully ignored, seldom appreciated. Seldom thanks has been given in return.

Any old Californian knows well enough that the humble Chink at your door is the most honest, the most faithful, the kindest, and the most abominably treated man with whom he comes in contact all day long.

But the last feature of this sad parable is a question.

Will the Chink be done away with at the terrible command of the walking delegate of the Vegetable Venders' Union? Well hardly.

Two parties will object. One, the vegetable John himself; one, the house-wife who buys his vegetables.

It would indeed be a grand idea to have the decent, well-behaved old Chimmen-turned into walking delegates swelling up and insulting people whom they fancied to be in their power.

But this could never be because Chinamen are too fond of work to be walking delegates.

It would be an idea of equal magni-

ALEXANDRIA HOTEL DISCHARGES

Walking Delegate Made Demands and Now His Victims Are Plodding the Streets Hunting Jobs—No Trouble Getting Experienced Men

The management of the Alexandria Hotel and the Geneva Society of hash slingers, with a membership strung around the world, collided yesterday

The management paid little attention to the fellows and smoothed things over after a manner. Then it became necessary to appoint an assistant to J. Brown, head waiter of the Alexandria menage.

wages, and told to "skiddoo," and do it quickly.

Immediately upon the heels of the departing "hashers" came a crowd of well-groomed, well-trained, dapper young fellows, who silently took their places, and the Geneva Society was a thing of the past as far as the Alexandria was concerned.

For several hours yesterday morning a crowd of the disgruntled waiters gathered at the service entrance to the hotel and prepared to intercept all comers. They were soon dispersed.

Chief Secretary of Ireland Bryes.

Chief Secretary of Ireland Bryce yesterday introduced in the House of Commons a bill authorizing a loan of \$22,500,000 to provide laborers' cottages in Ireland.
